Directors' Report

The Directors present their report on Encounter Resources Limited (the Company) and the entities it controlled (the Group) at the end of, and during the year ended 30 June 2025.

Directors

The names and details of the Directors of Encounter Resources Limited during the financial year and until the date of this report are:

Will Robinson – B.Comm, MAusIMM

Appointed 30 June 2004 - Executive Chairman from 24 November 2023.

Mr Robinson has worked in the resources industry in Australia and Canada for over twenty-five years. Mr Robinson's experience includes senior management roles at a large international resources company and executive roles in the junior mining and exploration sector. Mr Robinson is a former president of the resources industry advocacy body, the Association of Mining and Exploration Companies (AMEC). He was previously a member of the Strategic Advisory Board at the Centre for Exploration Targeting University of Western Australia and the Australian Federal Government's Resources 2030 Taskforce. Mr Robinson is Non-Executive Chairman of Hamelin Gold Limited (ASX:HMG) and a Non-Executive Director of unlisted Hampton Hill Mining NL.

Peter Bewick – B.Eng (Hons), MAusIMM

Non-Executive Director, appointed 7 October 2005

Mr Bewick is a geology graduate from the WA School of Mines with over thirty years of industry experience. He held a number of senior mine and exploration geological roles during a fourteen year career with WMC, including Exploration Manager and Geology Manager of the Kambalda Nickel Operations and Exploration Manager for St Ives Gold Operations. Mr Bewick also held corporate roles with WMC as Exploration Manager for the Nickel Business Unit and Exploration Manager for North America based in Denver, Colorado. He has extensive experience in project generation for a range of commodities including nickel, gold, copper and bauxite. Mr Bewick has been a member of the MERIWA College since 2013.

Mr Bewick is currently Managing Director of Hamelin Gold Ltd (ASX:HMG) and was previously Non-Executive Director of Mincor Resources NL (resigned 15 January 2024).

Jonathan Hronsky OAM - BAppSci, PhD, MAusIMM, FSEG

Non-executive director, appointed 10 May 2007

Dr Hronsky has more than forty years of experience in the mineral exploration industry, primarily focused on project generation, technical innovation and exploration strategy development. Dr Hronsky has particular expertise in regional-scale exploration targeting across a diverse range of commodities. His work led to the discovery of the West Musgrave nickel sulphide province in Western Australia. Dr Hronsky was previously Manager-Strategy & Generative Services for BHP Billiton Mineral Exploration. Prior to that, he was Global Geoscience Leader for WMC Resources Ltd. He is currently a director of exploration consulting group Western Mining Services and former Chairman of the board of management of the Centre for Exploration Targeting at the University of Western Australia.

Dr Hronsky is currently a Non-Executive Director of Paladin Energy Limited (ASX:PDN), Caspin Resources Limited (ASX:CPN), Strickland Metals Limited (ASX:STK) and is also General Partner - Global Targeting and Research at Ibaera Capital.

Operations and financial review

The consolidated net loss after income tax for the financial year was \$3,832,386 (2024: \$4,331,728).

Included in the consolidated loss for the current year is a write-off of deferred and uncapitalised exploration and joint venture expenditure totalling \$1,528,479 (2024: \$2,908,197).

Operations

The Company holds a commanding portfolio of 100%-owned projects located in some of Australia's most prospective mineral belts, targeting copper and critical minerals. Key among these is the Aileron Project in the highly endowed West Arunta region of Western Australia—emerging as a significant frontier for critical mineral exploration.

Encounter's exploration activities during the year were primarily directed towards the 100% owned Aileron Niobium-REE-Copper project in Western Australia.

During the period Encounter regained 100% control of the following projects, previously subject to farm-in and joint venture arrangements:

- Yeneena copper project in in the Paterson Province of Western Australia, following the withdrawal of IGO Limited.
- Carrara copper-zinc project in the Northern Territory with South32 Limited withdrawing from the Carrara Farm-in Agreement. South32 is continuing exploration activities at the Jessica Copper Project under the Jessica Farm-in Agreement.

Financial Position

At the end of the financial year the Group had \$18,638,519 (2024: \$14,050,537) in cash and term deposits. Capitalised mineral exploration and evaluation expenditure is \$30,612,089 (2024: \$22,853,601).

During the year the Company issued a total of 3,450,000 shares on the exercise of unlisted options at various prices. The Company issued 42,857,141 shares at \$0.35 per share pursuant to a share placement and 1,657,124 shares at \$0.35 per share pursuant to a share purchase plan. Issues of shares during the year raised ~\$16.4 million, before issue costs.

Operations and financial review (continued)

Material Business Risks

The Company operates in the mineral exploration industry in Australia and as such is exposed to and manages various risks typical of operating in that sector pursuant to the principles included in the Company's Audit and Risk Management Committee Charter. A summary of the key risks that the Company is exposed to are as follows:

Future capital requirements

The Company requires financial resources in order to carry out its exploration activities. Failure to obtain appropriate financing on a timely basis could cause the Company to have an impaired ability to expend the capital necessary to undertake or complete drilling programs, forfeit its interests in certain properties, and reduce or terminate its operations entirely. If the Company raises additional funds through the issue of equity securities, this may result in dilution to the existing shareholders and/or a change of control at the Company.

Exploration and evaluation risks

Mineral exploration and development are inherently highly speculative and involves a significant degree of risk. There is no guarantee that it will be economic to extract identified mineralisation or that there will be commercial opportunities available to monetise resources.

Mineral Resource estimation risks

Mineral Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when originally made may alter significantly when new information or techniques become available. In addition, by their very nature Mineral Resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate.

As further information becomes available through additional fieldwork and analysis, the estimates are likely to change. This may result in alterations to development and mining plans which may, in turn, adversely affect the Company's operations.

Title, tenure and land access risks

The rights to mineral tenements carry with them various obligations which the Company is required to comply with in order to ensure the continued good standing of the tenement. Failure to meet these requirements could prejudice the right to maintain title to a given area and result in government or third-party action to forfeit a tenement or tenements.

Mining and exploration tenements are subject to periodic renewal. The renewal of the term of granted tenements is subject to compliance with the applicable mining legislation and regulations and the discretion of the relevant mining authority.

In relation to tenements which the Company has an interest in or will in the future acquire such an interest, there are areas over which legitimate common law native title rights of Aboriginal Australians exist. Where native title rights exist, the ability to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and mining phases of operations may be adversely affected.

Environmental risks

The Company's operations and projects are subject to various health and environmental laws and regulations of jurisdictions in which it has interests. Environmental laws in Australia are subject to periodic review and exploration and mining operations may be adversely affected.

Encounter Resources Limited
ABN 47 109 815 796

Directors' Report

Operations and financial review (continued)

Sovereign risk

The Company is subject to political, social, economic and other uncertainties including, but not limited to, changes in policies or the personnel administering them, foreign exchange restrictions, changes of law affecting foreign ownership, currency fluctuations, royalties and tax increases.

Matters Subsequent to the End of the Financial Year

Other than as already stated in this report in relation to the exercise of options, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Significant Changes in the State of Affairs

Other than stated in this report, there have been no significant changes in the state of affairs of the Company and Group during or since the end of the financial year.

A further 1,630,000 shares have been issued since 30 June 2025 on the exercise of options.

Likely Developments and Expected Results of Operations

The Group expects to maintain exploration programs at its 100% owned Aileron niobium-REE copper project in Western Australia, Northern Territory copper projects and the Paterson Province copper and copper-gold projects.

In addition, the Group will continue to collaborate with its partner South32 Limited in the Northern Territory at the Jessica copper project pursuant to an earn-in and joint venture arrangement.

Disclosure of any further information has not been included in this report because, in the reasonable opinion of the Directors to do so would be likely to prejudice the business activities of the Group and is dependent upon the results of the future exploration and evaluation.

Dividends

No dividend has been paid since the end of the previous financial year and no dividend is recommended for the current year.

Environmental Regulation and Performance

The Group holds various exploration licences to regulate its exploration activities in Australia. These licences include conditions and regulations with respect to the rehabilitation of areas disturbed during the course of its exploration activities. So far as the Directors are aware, all current exploration activities are in compliance with relevant environmental regulations.

Remuneration Report (Audited)

Remuneration paid to Directors and Officers of the Company is set by reference to such payments made by other ASX listed companies of a similar size and operating in the mineral exploration industry. In addition, reference is made to the financial position of the Company and the specific skills and experience of the Directors and Officers.

Details of the nature and amount of remuneration of each Director, and other Key Management Personnel if applicable, are disclosed annually in the Company's Annual Report.

Directors' Report

Remuneration Report (Continued)

Remuneration Committee

The Board has adopted a formal Remuneration Committee Charter which provides a framework for the consideration of remuneration matters.

During the year the Company formed a Remuneration and Nomination Committee consisting of the Non-Executive Directors to consider remuneration matters, with no member deliberating or considering such matter in respect of their own remuneration.

The Remuneration and Nomination Committee is responsible for:

1. Setting remuneration packages for Executive Directors, Non-Executive Directors and other Key Management Personnel; and
2. Implementing employee incentive and equity-based plans and making awards pursuant to those plans.

Non-Executive Remuneration

The Company's policy is to remunerate Non-Executive Directors, at rates comparable to other ASX listed companies in the same industry, for their time, commitment and responsibilities.

Non-Executive Remuneration is not linked to the performance of the Company, however to align Directors' interests with shareholders' interests, remuneration may be provided to Non-Executive Directors in the form of equity based long term incentives.

1. Fees payable to Non-Executive Directors are set within the aggregate amount approved by shareholders at the Company's Annual General Meeting;
2. Non-Executive Directors' fees are payable in the form of cash and superannuation benefits;
3. Non-Executive superannuation benefits are limited to statutory superannuation entitlements; and
4. Non-executive directors are offered an annual election to receive cash remuneration or an equivalent amount in unlisted options. The annual election relates to the remuneration period from 1 December to 30 November of the relevant year and is subject to approval by the Company's shareholders.
5. Participation in equity-based remuneration schemes by Non-Executive Directors is subject to consideration and approval by the Company's shareholders.

The maximum Non-Executive Directors fees (excluding equity-based remuneration otherwise approved by shareholders), payable in aggregate are currently set at \$300,000 per annum.

Executive Director and Other Key Management Personnel Remuneration

Executive remuneration consists of base salary, plus other performance incentives to ensure that:

1. Remuneration packages incorporate a balance between fixed and incentive pay, reflecting short and long-term performance objectives appropriate to the Company's circumstances and objectives; and
2. A proportion of remuneration is structured in a manner to link reward to corporate and individual performances.

Executives are offered a competitive level of base salary at market rates (based on comparable ASX listed companies) and are reviewed regularly to ensure market competitiveness. To date, the Company has not engaged external remuneration consultants to advise the Board on remuneration matters.

Incentive Plans

The Company provides long term incentives to Directors and Employees pursuant to the Encounter Resources Employee Share and Option Plan, which was last approved by shareholders at the Annual General Meeting held on 24 November 2023 and the Encounter Resources Performance Rights Plan approved by shareholders at the Annual General Meeting held on 29 November 2024.

The Remuneration and Nomination Committee, acting in remuneration matters:

1. Ensures that incentive plans are designed around appropriate and realistic performance targets and provide rewards when those targets are achieved;
2. Reviews and approves existing incentive plans established for employees; and
3. Approves the administration of the incentive plans, including receiving recommendations for, and the consideration and approval of grants pursuant to such incentive plans.

Engagement of Non-Executive Directors

Non-Executive Directors conduct their duties under the following terms:

1. A Non-Executive Director may resign from their position and thus terminate their contract on written notice to the Company; and
2. A Non-Executive Director may, following resolution of the Company's shareholders, be removed before the expiration of their period of office (if applicable). Payment is made in lieu of any notice period if termination is initiated by the Company, except where termination is initiated for serious misconduct.

In consideration of the services provided by Non-Executive Directors, the Company pay them \$70,000 plus statutory superannuation per annum (until 30 September 2024 non-executive director fees were paid at \$50,000 per annum, plus statutory superannuation).

Non-Executive Directors are also entitled to fees for other amounts as the Board determines where they perform special duties or otherwise perform extra services or make special exertions on behalf of the Company.

Engagement of Executive Directors

The Company has entered into an executive service agreement with Mr Will Robinson on the following material terms and conditions:

Mr Robinson's current service agreement with the Company, in respect of his engagement as Executive Chairman, is effective from 24 November 2023. Mr Robinson will receive a base salary of \$350,000 per annum plus statutory superannuation.

An Executive Director may also receive an annual short-term performance-based bonus which may be calculated as a percentage of their current base salary, the performance criteria, assessment and timing of which is assessed annually by the Remuneration and Nomination Committee which is comprised of the Non-Executive Directors.

Either party may give the other six months' notice in writing to terminate the Services Agreement or with payment or forfeiture in lieu. The Company may terminate the respective services agreements without notice for serious misconduct by an executive director.

Executive Directors may, subject to shareholder approval, participate in the Encounter Resources Employee Share and Option Plan and other long term incentive plans adopted by the Board.

Directors' Report

Remuneration Report (Continued)

Short Term Incentive Payments

Each year, the Remuneration and Nomination Committee will set the Key Performance Indicators (KPI's) for the Executive Directors. The KPI's are chosen to align the reward of the individual Executives to the strategy and performance of the Company.

Performance objectives, which may be financial or non-financial, or a combination of both, are weighted when calculating the maximum short-term incentives payable to Executives. At the end of the year, the Non-Executive Directors will assess the actual performance of the Executives against the set Performance Objectives. The maximum amount of the short-term incentive, or a lesser amount depending on actual performance achieved is paid to the Executives as a cash payment.

Shareholding Qualifications

The Directors are not required to hold any shares in Encounter Resources under the terms of the Company's constitution. However, Directors have made their own investment decisions to hold shares in Encounter Resources which are shown in this report.

Group Performance

In considering the Company's performance, the Board provides the following indices in respect of the current financial year and previous financial years:

	2025	2024	2023	2022	2021
Profit/(Loss) for the year attributable to shareholders	\$(3,832,386)	\$(4,331,728)	\$(1,429,900)	\$4,428,194	\$(1,533,150)
Closing share price at 30 June	\$0.225	\$0.74	\$0.455	\$0.12	\$0.155

As an exploration company, the Board does not consider the profit/(loss) attributable to shareholders as one of the performance indicators when implementing Short Term Incentive Payments. In addition to economic and technical exploration success, the Board considers more appropriate indicators of management performance for the 2025 financial period to include:

- corporate management and business development (including the identification and acquisition of high-quality projects);
- project and operational performance (including safety and environmental management);
- management of the Company's farm-in and joint venture arrangements; and
- cash flow and funding management.

Details of Performance Related Remuneration

During the year ended 30 June 2025 a short-term incentive bonus (STI), measured for the period 1 January 2024 to 31 December 2024, was awarded to the Company's Executive Chairman as follows:

	Short term incentive payments - cash bonuses paid
	2024/25 financial year
Will Robinson	\$61,688 ¹

¹ STI bonus stated inclusive of SGC contributions where applicable.

Executives eligible for the STI are able to earn a bonus of up to a maximum of 25% of their corresponding base remuneration, with the final amount determined by performance against the below stated performance objectives.

The STI performance objectives for the abovementioned STI for the measurement period ended 31 December 2024 were as follows:

Performance Objective 1 (PO1) (Weighting up to 50%):

Successful execution of the Company's strategies and budget plans leading to first-rate outcomes for safety, environmental, operational performance and corporate culture.

This includes:

- Safety, environmental, operational performance and corporate culture
- Management of existing Earn-in and Joint Venture Agreements
- Commercialisation of additional projects through completion of a joint ventures or similar funding
- Management of the equity structure and cash position
- Discovery success

This objective is to be determined at the discretion of the board.

Performance against this objective is determined at the discretion of the board.

Performance Objective 2 (PO2) (Weighting up to 50%):

Shareholder returns – determined by Encounter's volume weighted average share price (VWAP) exceeding the Company's VWAP for the preceding 12-month period. Assuming a year on year (YOY) increase in the Company's VWAP, the potential executive bonus:

Options Granted as Remuneration

During the financial year ended 30 June 2025 363,000 options (2024: 660,000) were granted to Directors or Key Management Personnel of the Company, as follows:

Incentive options:

	Number
Will Robinson	165,000
Peter Bewick	66,000
Jon Hronsky	66,000
Philip Crutchfield	66,000

The fair value of options issued as remuneration is allocated to the relevant vesting period of the options. Where options are issued fully vested the fair value is recognised in the financial period in which the securities are issued. Options are provided at no cost to the recipients.

Options granted as remuneration to Key Management Personnel were valued using the Black-Scholes option valuation model using the following inputs:

	Number of options granted	Date granted	Exercise price (cents)	Expiry date	Risk free interest rate used	Volatility applied ¹	Value of Options
Will Robinson	165,000	29 Nov 2024	59.0	28 Nov 2028	4.05%	106.2%	\$43,880
Peter Bewick	66,000						\$17,551
Jon Hronsky	66,000						\$17,551
Philip Crutchfield	66,000						\$17,551
							\$96,533

¹Historical volatility has been used as the basis for determining expected share price volatility.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company or Group, or to intervene in any proceedings to which the Company or Group is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Officers' Indemnities and Insurance

During the year the Company paid an insurance premium to insure certain officers of the Company. The officers of the Company covered by the insurance policy include the Directors named in this report.

The Directors and Officers Liability insurance provides cover against all costs and expenses that may be incurred in defending civil or criminal proceedings that fall within the scope of the indemnity and that may be brought against the officers in their capacity as officers of the Company. The insurance policy does not contain details of the premium paid in respect of individual officers of the Company. Disclosure of the nature of the liability cover and the amount of the premium is subject to a confidentiality clause under the insurance policy.

The Company has not provided any insurance for an auditor of the Company.

Non-audit Services

During the year the Company's auditor HLB Mann Judd (and former auditor Crowe Perth), have not performed any other services in addition to their statutory duties other than as stated below.

Total paid to auditors during the financial year:	2025	2024
	\$	\$
Audit and review of the Company's financial statements	56,800 ²	37,600 ¹
Audit of tenement expenditure reports	-	2,650 ¹

¹ Amounts paid to Crowe Perth, who ceased as auditor of the Company effective 8 October 2024.

² Includes a total amount of \$30,300 paid to Crowe Perth.

The board considers any non-audit services provided during the year by the auditor and satisfies itself that the provision of any non-audit services during the year by the auditor is compatible with, and does not compromise, the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services are reviewed by the board to ensure they do not impact the impartiality and objectivity of the auditor; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*, as they do not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

Notes to the Consolidated Financial Statements
For the financial year ended 30 June 2025

Note 1 Summary of material accounting policy information

The material accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes financial statements for the consolidated entity consisting of Encounter Resources Limited and its subsidiaries ("Group").

Basis of preparation

This general-purpose financial report has been prepared in accordance with Australian Equivalents to International Financial Reporting Standards ("AIFRS"), other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

The financial report is presented in Australian dollars and all values are rounded to the nearest dollar.

The separate financial statements of the parent entity have not been presented within this financial report as permitted by the Corporations Act 2001 (refer Note 32 for further information)

The financial report of the Group was authorised for issue in accordance with a resolution of Directors on 29 September 2025.

Statement of Compliance

The consolidated financial report of Encounter Resources Limited complies with Australian Accounting Standards, which include AIFRS, in their entirety. Compliance with AIFRS ensures that the financial report also complies with International Financial Reporting Standards ("IFRS") in their entirety.

Adoption of new and revised Accounting Standards

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group during the financial year.

New standards and interpretations not yet adopted

The AASB has issued new and amended Accounting Standards and Interpretations that have mandatory application date for future reporting periods and which the Group has decided not to early adopt.

Reporting basis and conventions

These financial statements have been prepared under the historical cost convention, and on an accrual basis.

Critical accounting estimates

The preparation of financial statements in conformity with AIFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

Principles of consolidation

The financial statements of subsidiary companies are included in the consolidated financial statements from the date control commences until the date control ceases. The financial statements of subsidiary companies are prepared for the same reporting period as the parent company, using consistent accounting policies.

Inter-entity balances resulting from transactions with or between controlled entities are eliminated in full on consolidation. Investments in subsidiary companies are accounted for at cost in the individual financial statements of the Company.

Encounter Resources Limited
ABN 47 109 815 796

Notes to the Consolidated Financial Statements
For the financial year ended 30 June 2025

Note 1 Summary of material accounting policy information (continued)

(a) Segment reporting

Operating segments are identified and segment information disclosed, where appropriate, on the basis of internal reports reviewed by the Company's board of directors, being the Group's Chief Operating Decision Maker, as defined by AASB 8.

(b) Other income

Interest income

Interest income is recognised on a time proportion basis and is recognised as it accrues.

Option fee income

Recognised for option fee income at such time that the option fee becoming receivable by the Company occurs.

Management fee income

Recognised for management fees from farm-in and alliance partners during the period in which the Company provided the relevant service.

(c) Impairment of assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash generating units). Non-financial assets, other than goodwill, that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

(d) Property, plant and equipment

Depreciation of property, plant and equipment is calculated using the straight line and diminishing value methods to allocate their cost, net of residual values, over their estimated useful lives, as follows:

Asset Class	Depreciation Rate
Field equipment and vehicles	33%
Office equipment	33%
Leasehold improvements	Over the term of the lease

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(c)). Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement.

Encounter Resources Limited
ABN 47 109 815 796

Notes to the Consolidated Financial Statements
For the financial year ended 30 June 2025

Note 1 Summary of material accounting policy information (continued)

(e) Mineral exploration and evaluation expenditure

Mineral exploration and evaluation expenditure is written off as incurred or accumulated in respect of each identifiable area of interest and capitalised. These costs are carried forward only if they relate to an area of interest for which rights of tenure are current and in respect of which:

- such costs are expected to be recouped through the successful development and exploitation of the area of interest, or alternatively by its sale; or
- exploration and/or evaluation activities in the area have not reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active or significant operations in, or in relation to, the area of interest are continuing.

In the event that an area of interest is abandoned or if the Directors consider the expenditure to be of reduced value, accumulated costs carried forward are written off in the year in which that assessment is made. A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Immediate restoration, rehabilitation and environmental costs necessitated by exploration and evaluation activities are expensed as incurred and treated as exploration and evaluation expenditure. Exploration activities resulting in future obligations in respect of restoration costs result in a provision to be made by capitalising the estimated costs, on a discounted cash basis, of restoration and depreciating over the useful life of the asset. The unwinding of the effect of the discounting on the provision is recorded as a finance cost in the income statement.

Farm-in arrangements (in the exploration and evaluation phase)

For exploration and evaluation asset acquisitions (farm-in arrangements) in which the Group has made arrangements to fund a portion of the selling partner's (farmor's) exploration and/or future development expenditures (carried interests), these expenditures are reflected in the financial statements as and when the exploration and development work progresses.

Farm-out arrangements (in the exploration and evaluation phase)

The Group does not record any expenditure made by the farmee on its account. It also does not recognise any gain or loss on its exploration and evaluation farm-out arrangements but designates any costs previously capitalised in relation to the whole interest as relating to the partial interest retained. Monies received pursuant to farm-in agreements are treated as a liability on receipt and until such time as the relevant expenditure is incurred.

(f) Joint ventures and joint operations

Joint ventures

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Investments in joint ventures are accounted for using the equity method. Under the equity method, the share of the profits or losses of the joint venture is recognised in profit or loss and the share of the movements in equity is recognised in other comprehensive income. Investments in joint ventures are carried in the statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the joint venture. Goodwill relating to the joint venture is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment. Income earned from joint venture entities reduces the carrying amount of the investment.

Joint operations

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. The Group has recognised its share of jointly held assets, liabilities, revenues and expenses of joint operations. These have been incorporated in the financial statements under the appropriate classifications.

Details of these interests are shown in Note 15.

Notes to the Consolidated Financial Statements
For the financial year ended 30 June 2025

Note 1 Summary of material accounting policy information (continued)

(g) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(h) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the earnings attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(i) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Note 2 Financial risk management

The Group has exposure to a variety of risks arising from its use of financial instruments. This note presents information about the Company's exposure to the specific risks, and the policies and processes for measuring and managing those risks. The Board of Directors has the overall responsibility for the risk management framework and has adopted a Risk Management Policy.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from transactions with customers and investments.

Trade and other receivables

The nature of the business activity of the Group does not result in trading receivables. The receivables that the Group does experience through its normal course of business are short term and the most significant recurring by quantity is receivable from the Australian Taxation Office, the risk of non-recovery of receivables from this source is considered to be negligible.

Cash deposits

The Directors believe any risk associated with the use of predominantly only one bank is addressed through the use of at least an A-rated bank as a primary banker and by the holding of a portion of funds on deposit with alternative A-rated institutions. Except for this matter the Group currently has no significant concentrations of credit risk.

Encounter Resources Limited
ABN 47 109 815 796

Notes to the Consolidated Financial Statements
For the financial year ended 30 June 2025

Note 2 Financial risk management (Continued)

(b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages its liquidity risk by monitoring its cash reserves and forecast spending. Management is cognisant of the future demands for liquid finance resources to finance the Company's current and future operations, and consideration is given to the liquid assets available to the Company before commitment is made to future expenditure or investment.

(c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising any return.

Interest rate risk

The Group has significant cash assets which may be susceptible to fluctuations in changes in interest rates. Whilst the Group requires the cash assets to be sufficiently liquid to cover any planned or unforeseen future expenditure, which prevents the cash assets being committed to long term fixed interest arrangements; the Group does mitigate potential interest rate risk by entering into short to medium term fixed interest investments.

Equity risk

The Group has exposure to price risk in respect of its holding of ordinary securities in Hampton Hill NL, which has a carrying value at 30 June 2025 of \$59,342 (2024: \$59,342). The investment is classified at fair value through profit or loss and as such any movement in the value of Hampton Hill NL shares will be recognised as a benefit of expense in profit or loss. No specific hedging activities are undertaken into this investment.

Foreign exchange risk

The Group enters into earn-in arrangements that may be denominated in currencies other than Australian Dollars.

Whilst the Group does not recognise assets or liabilities in respect of these earn-in arrangements and accordingly fluctuations in foreign exchange rates will have no direct impact on the Group's net assets, movements in foreign exchange may favourably or adversely affect future amounts to be incurred by the Group or its earn-in partners pursuant to such agreements.

Other than the above, the Group does not have any direct contact with foreign exchange fluctuations other than their effect on the general economy.

Notes to the Consolidated Financial Statements
For the financial year ended 30 June 2025

Note 3 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances. The judgements estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Accounting for capitalised exploration and evaluation expenditure

The Group's accounting policy is stated at 1(e). There is some subjectivity involved in the carrying forward as capitalised or writing off to profit or less the exploration and evaluation expenditure. Key judgements applied include determining which expenditures relate directly to exploration and evaluation activities and allocating overheads between those that are expensed and capitalised. Management give due consideration to areas of interest on a regular basis and are confident that decisions to either write off or carry forward such expenditure reflect fairly the prevailing situation.

Accounting for share based payments

The values of amounts recognised in respect of share-based payments have been estimated based on the fair value of the equity instruments granted. Fair values of options issued are estimated by using an appropriate option pricing model. There are many variables and assumptions used as inputs into the models. If any of these assumptions or estimates were to change this could have a significant effect on the amounts recognised. See note 20 for details of inputs into option pricing models in respect of options issued during the reporting period.

Note 4 Segment information

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors in assessing performance and determining the allocation of resources. Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics. The Group's sole activity is mineral exploration and resource development wholly within Australia, therefore it has aggregated all operating segments into the one reportable segment being mineral exploration.

The reportable segment is represented by the primary statements forming these financial statements.

Note 15 Interest in joint ventures and farm-in arrangements

a) Joint Venture Agreements – Joint Operations

Joint venture agreements may be entered into with third parties.

Assets employed by these joint ventures and the Group's expenditure in respect of them is brought to account initially as capitalised exploration and evaluation expenditure until a formal joint venture agreement is entered into.

b) Joint Venture and Farm-in Arrangements

Earn-in and Joint Venture Agreement – Jessica Copper Project ("Jessica")

The key terms for the farm-in and joint venture agreement are:

- South32 has the right to earn a 60% interest in Jessica (the "Initial Interest") by sole funding \$15 million of exploration expenditure within 10 years.
- During the farm-in phase or joint venture period, South32 may earn an additional 15% interest in Jessica (the "Further Interest") by completing a Scoping Study.
- Upon South32 earning the Initial Interest or Further Interest in Jessica, a 60:40 or 75:25 joint venture will be formed and in the case of South32 earning the Further Interest, the parties must contribute funds based on their pro-rata interest or dilute according to a standard dilution formula. Should a party's interest dilute to below 10%, that party's interest shall automatically convert to a net smelter return royalty.
- During the farm-in phase, South32 will be the Manager of the project.

During the farm-in phase, a technical committee comprising representatives from each of Encounter and South32 will review and approve annual exploration programs and budgets. All decisions of the technical committee will be decided by majority vote, with South32 having a casting vote.

South32 are currently in the Initial Interest earning stage at Jessica.

Scoping Study means an order of magnitude technical and economic study of the potential viability of JORC Mineral Resources for the relevant project.

During the period Encounter regained 100% control of the following projects, previously subject to farm-in and joint venture arrangements:

- Yeneena copper project in in the Paterson Province of Western Australia, following the withdrawal of IGO Limited Carrara copper-zinc project in the Northern Territory and South32 Limited withdrawing from the Carrara Farm-in Agreement.

Capital risk management

The Company's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt (where applicable). Net debt is calculated as total borrowings less cash and cash equivalents. In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company may seek to raise capital to fund its exploration and evaluation programs, invest in project generation or acquisition and to fund the corporate and administrative costs that support such activities.

The capital risk management policy remains unchanged from the 30 June 2024 Annual Report.

Note 22 Financial instruments

Credit risk

The Directors do not consider that the Group's financial assets are subject to anything more than a negligible level of credit risk, and as such no disclosures are made, note 2(a).

Impairment losses

The Directors do not consider that any of the Group's financial assets are subject to impairment at the reporting date. No impairment expense or reversal of impairment charge has occurred during the reporting period, other than the write off of deferred exploration assets at note 14.

Interest rate risk

At the reporting date the interest profile of the Group's interest-bearing financial instruments was:

	Carrying amount (\$)	
	2025	2024
Fixed rate instruments		
Financial assets	-	-
Variable rate instruments		
Financial assets ¹	18,638,519	14,050,537

Note 26 Contingencies

(i) Contingent liabilities

There were no material contingent liabilities not disclosed for in the financial statements of the Group as at 30 June 2025 or 30 June 2024 other than:

Yeneena Project Gold Claw-back

Included in the agreement for the Group's acquisition of the remaining 25% interest of certain licences in the Yeneena Project is a gold claw-back right in the event of a major discovery of a deposit of minerals dominant in gold, with gold revenue measured in a mining study equal to or exceeding 65% of total revenue and where a JORC compliant mineral resources exceeds 4,000,000 ounces of gold or gold equivalent, or is capable of producing at least 200,000 ounces of gold or gold equivalent per year for 10 years.

Under the agreement Barrick (Australia Pacific) Limited retains the right to regain an interest of between 70 and 100% in the gold discovery at a price of between US\$40-100 per ounce, with a 1.5% net smelter royalty to Encounter Resources.

The Yeneena Project Gold Claw-back relates to the following exploration licences: E45/2500, E45/2501, E45/2502, E45/2561, E45/2657, E45/2658, E45/2805 and E45/2806.

Lamil Production Royalty

The Group is subject to a production unit royalty of \$1 per dry metric tonne of ore mined and sold from licence E45/4613 at its Lamil Copper-Gold Project.

Native Title and Aboriginal Heritage

The Group has Land Access and Mineral Exploration Agreements with Jamukurnu-Yapalikurnu Aboriginal Corporation (formally Western Desert Lands Aboriginal Corporation) in relation to the tenements comprising the Yeneena Copper Project and the Lamil Copper-Gold Project. Jamukurnu-Yapalikurnu Aboriginal Corporation (Western Desert) is the Prescribed Body Corporate for the Martu People of the Central Western Desert region in Western Australia.

The Company has entered into the Mineral Exploration and Land Access Deed of Agreement with the Parna Ngururra (Aboriginal Corporation) RNTBC in relation to the Aileron project in the West Arunta in Western Australia.

Native title claims have been made with respect to areas which include tenements in which the Group has an interest. The Group is unable to determine the prospects for success or otherwise of the claims and, in any event, whether or not and to what extent the claims may significantly affect the Group or its projects. Agreement is being or has been reached with various native title claimants in relation to Aboriginal Heritage issues regarding certain areas in which the Group has an interest.

Bank guarantees

ANZ Bank has provided an unconditional bank guarantee amounting to \$25,652 in relation to the lease over the Company's office premises at Suite 2, 1 Alvan Street, Subiaco, Western Australia.

A bank guarantee exists, and a corresponding amount of \$100,000 held on deposit, in relation to the Group's corporate credit card facility.

These amounts are not reported as a cash asset in these financial statements, and are classified as security bonds and deposits in non-current assets (refer Note 8(c)).

(ii) Contingent assets

There were no material contingent assets as at 30 June 2025 or 30 June 2024.

Encounter Resources Limited
ABN 47 109 815 796

Notes to the Consolidated Financial Statements

Note 27 Commitments

(a) Exploration

The Group has certain obligations to perform minimum exploration work on mineral leases held. These obligations may be varied as a result of renegotiations of the terms of the exploration licences or their relinquishment. The minimum exploration obligations are less than the normal level of exploration expected to be undertaken by the Group.

As at balance date, total exploration expenditure commitments on tenements held by the Group have not been provided for in the financial statements and which cover the following twelve-month period amount to \$4,422,000 (2024: \$2,478,500).

The exploration expenditure obligations stated above include amounts (approximately \$2.0m (2024: approximately \$1.3m)) that are funded by third parties pursuant to various farm-in agreements (Note 15). Therefore, current expenditure commitment on Encounter 100% owned projects is approximately \$2.4m (2024: approximately \$1.2m).

(b) Contractual Commitment

There are no material contractual commitments as at 30 June 2025 or 30 June 2024 not otherwise disclosed in the Financial Statements.

Note 28 Related party transactions

Transactions with Directors during the year are disclosed at Note 24 – Key Management Personnel.

There are no other related party transactions other than as stated in the financial statements.

Note 29 Events occurring after the balance sheet date

Other than as already stated in this report in relation to the exercise of options, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

INDEPENDENT AUDITOR'S REPORT

To the Members of Encounter Resources Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Encounter Resources Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes to the consolidated financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2025 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<p>Carrying value of Capitalised Mineral Exploration And Evaluation Expenditure Refer to Note 14</p>	
<p>In accordance with <i>AASB 6 Exploration for and Evaluation of Mineral Resources</i>, the Group capitalises exploration and evaluation expenditure.</p> <p>Our audit focused on the Group's assessment of the capitalised exploration and evaluation expenditure, as this is one of the most significant assets of the Group and is material to the users of the financial statements.</p>	<p>Our procedures included but were not limited to the following:</p> <ul style="list-style-type: none"> - We obtained an understanding of the key processes associated with management's review of the carrying values of each area of interest; - We considered the Directors' assessment of potential indicators of impairment; - We obtained evidence that the Group has current rights to tenure of its areas of interest; - We examined the exploration budget for the coming period and discussed with management the nature of planned ongoing activities; - We enquired with management, reviewed ASX announcements and reviewed minutes of Directors' meetings to ensure that the Group had not resolved to discontinue exploration and evaluation at any of its areas of interest; - We substantiated a sample of capitalised expenditure to underlying support; and - We examined the disclosures made in the financial report.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2025, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- (a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and

- (b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- (a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- (b) the consolidated entity disclosure statement that is true and correct and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
